1.1 First section

1.1.1 Navier—Stokes equation

After several months of working with 11pt CMR both on screen and paper, I have decided to look for some alternative, because CMR text appeared to me too "light". A brief search resulted in finding a good collection of free LaTeX fonts, where besides the font appearance one can get information on the installation and activation of a particular font in LaTeX. After few weeks of trying different fonts from that collection, I have stopped my choice on Bitstream Charter (Charter BT) as the font for the "body" text:

Google
